

Dear Y2 and Y3 Parents,

I'm delighted to let you know that Curious Kids hands-on science after-school club will be coming back to Horsley after Christmas! I'm Hannah, a former primary school teacher who absolutely loves science, and I'll be delivering the sessions.

Each week, your child will explore a brand-new science question through exciting experiments and fun crafts they can take home.

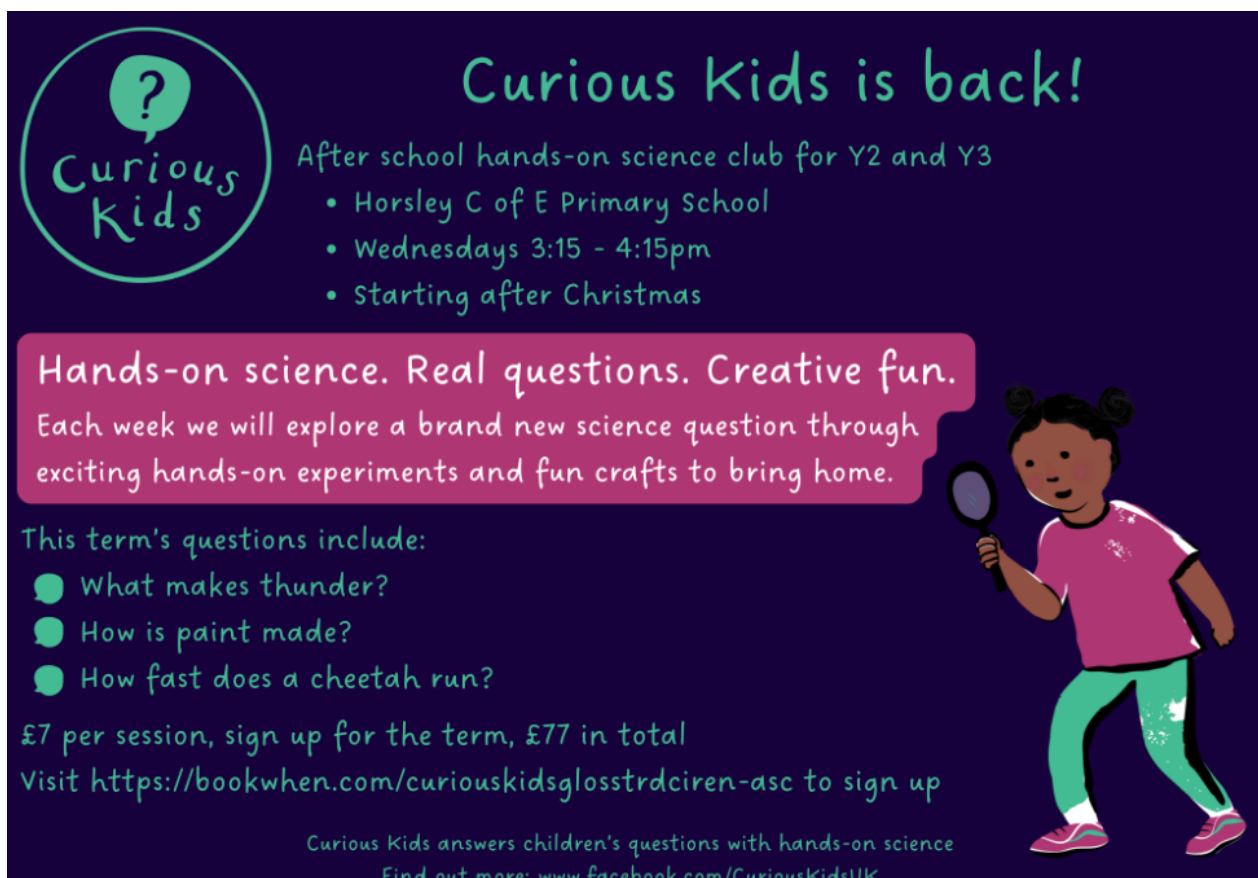

Some of the fascinating questions your children will explore next term include: What makes thunder? How is paint made? How fast does a cheetah run?

Club Details:

- **Who is it for:** Y2 and Y3 children
- **When:** Wednesdays, 3:15 - 4:15pm, starting Wednesday 7th January - Wednesday 25th March
- **Cost:** £7 per session or £77 for the full term (children in receipt of Pupil Premium funding, please enter the code PP40 at checkout for 40% off)
- **How to sign up:** Use this booking link to sign up and pay online: <https://bookwhen.com/curiouskidsglosstrdciren-asc/e/ev-sju2x-20260107151500>

I can't wait to welcome your curious kids for a term of hands-on science, fun crafts, and exciting discoveries!

Please also see the flyer below.

The flyer features a dark purple background. On the left, there is a circular logo with a question mark and the text 'Curious Kids'. To the right of the logo, the text reads 'Curious Kids is back!' in a large, light blue font. Below this, it says 'After school hands-on science club for Y2 and Y3' followed by a list of details: 'Horsley C of E Primary School', 'Wednesdays 3:15 - 4:15pm', and 'Starting after Christmas'. A pink speech bubble contains the text 'Hands-on science. Real questions. Creative fun. Each week we will explore a brand new science question through exciting hands-on experiments and fun crafts to bring home.' Below the speech bubble, it lists 'This term's questions include:' followed by three bullet points: 'What makes thunder?', 'How is paint made?', and 'How fast does a cheetah run?'. At the bottom left, it states '£7 per session, sign up for the term, £77 in total' and provides the booking link. At the bottom right, there is an illustration of a girl with dark skin and hair in two buns, wearing a pink t-shirt and green pants, holding a magnifying glass. At the very bottom, it says 'Curious Kids answers children's questions with hands-on science' and 'Find out more: www.facebook.com/CuriousKidsUK'.

Curious Kids
